

Announcement

In Alatsata, the city of their parents and grandparents, the local Municipality will establish a City Museum. For this purpose, the curator of the project has formally requested the collaboration of our Association in order to offer exhibits for city's history before 1922. The material requested should reflect life in Alatsata and can be in the form of books, photographs, documents and other objects of everyday life.

By a decision of the Management Board of our Association we agreed to cooperate aiming at the better presentation of the history of the presence of Hellenism in Alatsata until 1922 and our own history in the today's City Museum.

In order to achieve this, we kindly ask from all Alatsateans for your active participation by sending us material for the Museum. Please note that all valuable materials, documents and photographs will be donated in reproductions and the originals will remain in the hands of the owners.

For further information please contact us as soon as possible at info@alatsata.net
